# WEATHER OF CONCERN

## Weather of Concern

- Periods of light to moderate rain showers return to the Northern California burn scars this afternoon through tomorrow night.

## **Active Weather Warnings, Watches and Advisories by County:**

- <https://alerts-v2.weather.gov/counties/CA>

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

### **Mendocino, Napa, Sonoma and Solano Counties:**

Patchy morning fog. Highs from the mid 50s to mid 60s. Lows in the mid 40s to mid 50s tonight and tomorrow night. Winds generally from the south and southwest at 10-20 mph with gusts to 25 mph possible through tomorrow.

### **Yuba and Butte Counties:**

Patchy morning fog. Highs in the mid 50s to mid 60s in the lower elevations and mid 40s to mid 50s at higher elevations. Lows in the mid 40s to mid 50s tonight and tomorrow night. Winds generally from the south at 10-20 mph with gusts to around 35 mph possible through tomorrow. Winds will then be from the north at 8-15 mph.

A deep upper level trough will bring rain and gusty winds to Northwest portion of the region this weekend. A few showers will be possible during the day today in Humboldt and Del Norte counties, but widespread rain will hold off until tonight into tomorrow. Higher amounts will be possible in southwest facing mountainous terrain. Snow levels will begin over 9,000 feet today and then fall to 4,000-5,000 feet tomorrow evening. In addition to the rainfall, gusty south winds are expected in Humboldt and Del Norte counties into tonight. Wind gusts of 40-50 mph will be possible on mountain ridge tops and coastal headlands.

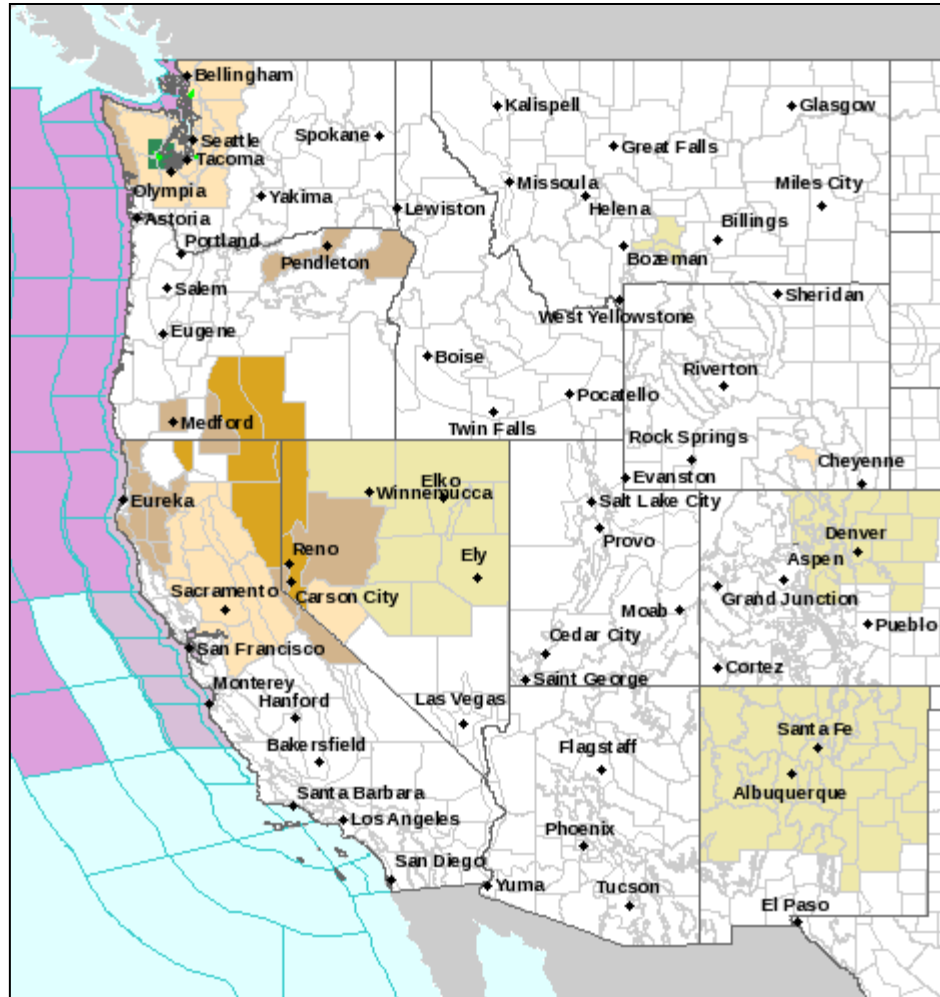

## **SOUTHERN CALIFORNIA**

Patchy morning fog, otherwise mostly clear skies through tomorrow. Some very light rain/drizzle is possible tomorrow night. Highs in the mid to upper 60s along the coast and low 70s to low 80s inland. Highs in the Santa Ana Mountains will be low to mid 70s today and tomorrow. Winds will be generally from the south at less than 10 mph through tomorrow.

Temperatures will cool slightly today as the strong high pressure area centered off the Northern Baja Coast weakens a little. However, maximum temperatures will still be 10 to 20 degrees above normal with mid 60s to mid 70s across the mountains, 70s in the Central California Valleys, and 80s in the region valleys. Minimum humidity will be mainly in the teens today and winds will be light. A Pacific trough will approach the West Coast tomorrow and push inland Monday bringing significant cooling to the region. Temperatures will be below normal across the entire area by Monday. This trough will also bring scattered showers away from the deserts tomorrow evening through Monday afternoon, with most locations expected to receive less than a quarter inch of rainfall. However, the Central Sierra and the Big Sur Coast will likely receive between 0.5 and 2 inches of rainfall. The snow level over the Sierra will be between 7,000 and 8,000 feet. There will be south to west winds of 20 to 30 mph with gusts to 50 mph across wind prone mountain, desert, and Central Coast locations tomorrow afternoon through Monday afternoon. Temperatures will warm to around 10 degrees Tuesday and Wednesday as a ridge of high pressure builds into California from the Pacific. North winds of 20 to 30 mph with gusts to 50 mph will surface across much of Santa Barbara County and the Grapevine Monday night. There will be northeast to east winds of 15 to 25 mph with gusts to 40 mph across the mountains and below the canyons and passes of the region Tuesday. At this time, it looks as though there will be a big pattern change starting late next week as storms work their way south into California and significant rainfall will be possible by next weekend.

OF EMERGENCY SERVICES

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- Nothing significant to report.

# Cal OES MISSION TASKING

## Cal OES Missions

- **2017-Inland-37776:** Two Air Monitors for Mariposa County (On Scene)
- **2017-Coastal-37716:** One Air Monitor for Humboldt County (On Scene)
- **2017-SOC-38645:** One California Department of Transportation Archeologist to support the Joint Field Office (JFO) from 11/13/17 to 11/28/17. In coordination with a Cal OES Senior Environmental Planner, the Associate State Archeologist will review Disaster Damage Descriptions for potential California Historical Resources Information System (CHRIS) requests and request CHRIS reports when necessary.
- **2017-SOC-41344:** Individual Assistance (IA) request for cache phones for each lead for the LACs/DRCs for the Governors Office to contact them
- **2017-IREOC-38682:** DTSC Hazardous Waste Task Force (Helena Fire)
- **2017-IREOC-38683:** CalRecycle Debris Management Task Force (Helena Fire)
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- **2017-Cal OES-38400:** One Air Quality E-BAM modem for Klamath (Del Norte OA)
- **2017-Cal OES-38725:** Caltrans to perform bridge inspections on the National Trails Highway, San Bernardino County (On Scene)
- **2017-Cal OES-39160:** Communications Support for the Helena Fire, Trinity County
- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
